### SR14 LED CRI Downlighter

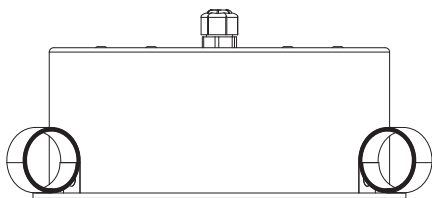

Recessed 16W LED Down Light for lighting internally. Using opalized glass and selected LEDs to create warm white light with high colour rendering index .

Utilising three constant force springs for ease of installation.

The fitting emits a broad wash of diffused light with 100 lux at 1m.

Use with 1W (350mA) TXDL20 driver.  
See catalogue (edition 9) page 86 - 89 for wiring diagrams and driver specification.

**IP54**
