SR17 LED

Semi-recessed LED Ceiling Light for lighting externally and overhead mounted deck lighting on yachts. Using dished opalized glass and selected LEDs to create a warm white light directed downward.

Options are for an 'extra warm white' which uses a mix of warm white plus amber LED's to produce 2900K, or a special selection which achieves a high colour rendering.

Use with 1W (350mA) TXDL20 driver.
See catalogue (edition 9) page 86 - 89 for wiring diagrams and driver specification.

**SR15 LED**

The same specification as a SR17 LED, except with a flat diffuser.

IP 65
Options for SR17 LED / SR15 LED
