

LD42D

ULTRA-LOW GLARE MINIATURE SEMI-RECESSED DOMED LED WALL LIGHT

CB | RLE | R+R

The miniature LD42D is ideal for discreet lighting of steps and pathways within interior, exterior and marine applications. The fitting is an evolution of our popular LD42, offering a new bezel aesthetic. When viewed from above, the machined, domed bezel obscures the light source, resulting in ultra-low glare. LD42D offers a powerful floor wash reaching up to 3 metres, with an optional 20° Tilt lens to focus the beam down onto the lit surface. With Narrow to Oval beam angles available and a high IP rating, a range of lighting effects can be created even in the harshest environments.
