To be used with 24V constant voltage LED Drivers and Controllers

We offer a range of drivers with 1-10V, DMX, DALI and Mains dimming options. Please download the data sheet from the downloads section at www.lightgraphix.co.uk, or contact us for more information

Wet spray finishes

LightGraphix has had four custom colours made up to allow us to give a much closer match to our anodised finishes. This allows us to match the finish of all the component parts of the LED picture light, which is manufactured from many different materials.

Mounting a driver behind a picture

If the LED driver can not be located remotely then one of the drivers below can be located in a box recessed into the wall behind the picture (wall box supplied by others).

TXDA24008 (8W)

Non dim, to suit standard single gang wall box

TXDTC24020DIM (20W), DALI (16W)

1-10V / DALI dim, to suit standard double gang wall box
